RABBI SUGGESTS "COOLING PERIOD TO QUELL DIVORCE

Novel Marriage Reforms Proposed Before Conference of Jewish Clergymen.

ATLANTIC CITY, July 7.--A "cooling period" of three months from the time of the final hearing until ultimate decision is handed down by the courts was the novel scheme advanced this morning by the Rev. J. Leonard Levy of Pittsburgh as the solution of the problem of minimizing the divorce evil. This plan was brought out while speak-ing on the "Modern Problem of Marriage and Divorce" before the Central Conference of American Rabbis in convention at the Hotel Rudolf here to-day. "This reduction, I believe, in the sep-arations between married couples would be to a startling extent," he declared, "If some plan of this nature were carried out. Let the concluding chapters of a suit for divorce be held up for a quarter of a year from the day of the completion of the trial, making it con-

'This cooling period might thus elapse, during which neither of the divorced persons would remarry. This might no tions, but would surely save us the shock to our moral sensibilities caused by the announcements such as 'Divorced and Married in One Hour.'

"Another thing that should be ad vocated is uniform Federal marriage and divorce laws. The confusion caused by so many acts and the possibility of evading the laws of one State by the protection of the laws of another State is certainly most undestrable. It is cer-tain that if the present laws, inadequate, conflicting and confusing, were efficiently enforced, however, many of the evils deplored by honest men and vomen would disappear.
